VOL. XVI NO. 272.

CHARLEROI, WASHINGTON CO., PA. TUESDAY, MAY 2, 1916.

ONE CENT

WILL OPERATE CARS TO-NIGHT

Agreement is Reached in Pittsburgh Railways Strike

FIVE CENTS WAGE ADVANCE

Ending a strike lasting practically two days, cars will be put in operation on the Pittsburgh and branch lines of the Pittsburgh Railway company to-night under an agreement voted this morning by car men and accepted. The wages of conductors and motormen by the new scale will range according to length of service from 27 to 35 cents an hour. This will be an advance generally of about five cents an hour.

Questions that were voted on during the morning incident the rate of pay for men on the Beaver and Washington lines. They have been receiving two cents less per hour than their Pittsburgh brethren.

The Charleroi car men were represented in Pittsburgh by R. Green, who is a member of the scale committee. Tuesday night a conference was held looking to a settlement of the strike, and a proposition was outlined by Mayor Joseph G. Armstrong. This was the proposition submitted to the car men this morning.

Cars will be taken from the barns just as soon as possible and men return to work. At the Charleroi barn, everything was locked up tight at the beginning of the strike and it will take some hours before normal conditions can be restored. It is expected that late tonight runs can be completed. Tomorrow operation of cars will be as usual.

Fire on Hill

A slight fire occurred at the home of George Scley at 911 Crest avenue Monday evening. Little damage was done, only a part of the roof being burned.

"THE NE'er-DO-WELL" WORTHY SUCCESSOR TO "THE SPOILERS"

The spectacular photoplay, "The Ne'er-Do-Well," produced by the Selig company from the story written by Rex Beach is a worthy successor to "The Spoilers," that other wonder play from the pen of the same author and filmed by the Selig company. "The Ne'er-Do-Well" will be presented on Friday at the Coyle theatre. The Selig stars who made "The Spoilers" a masterpiece, aid in the realism of "The Ne'er-Do-Well." It is a story full of unfamiliar fascination of Panama. A special company of Selig players, including Kathryn Williams, Wheeler Oakman, Frank Clark, Jack McDonald and others were escorted to Panama Canal zone by William N. Selig in order that proper atmosphere for scenes necessary in Rex Beach's story might be filmed. There is a wonderful fight that equals the fight in "The Spoilers."

Charleroi Symphony Orchestra, under Jean DeBacker, with Reese R. Reese, as soloist at the High School Auditorium this evening. 272-t1-*

PUNCH BOARDS MUST GO SAYS CONSTABLE STABLEIN

Edict of the Court Must be Obeyed—Thorough Campaign Now Under Way in the County

Punch and candy boards must disappear, pea pool stopped, chicken fighting—if there is any—discontinued and all those evils mentioned in a recent edict from the court eliminated in the borough of Charleroi. Such is the word of the Constable George W. Stablein is issuing today, after receiving further instructions from the court at Washington Monday. "And you can add," says Mr. Stablein "that I mean business."

Already Mr. Stablein has done part of the work necessary in eliminating punch and candy boards and is notifying store owners and others operating them as rapidly as possible. He invites those who have complaints to make to call him by telephone or to see him in person.

Constables in all parts of the county have received explicit instructions in regard to various evils and a campaign that promises to be one of the most thorough ever started is in progress.

LABOR TROUBLE CUTS SHIPMENTS

River Coal Trade Falls Short During April According to Lock Report

RAINFALL IS 3.16 INCHES

Because of labor trouble during April coal shipments through Lock No. 4 were considerably reduced. The total coal passing through the lock was 11,942,000 bushels.

At the first of April practically all coal mines were temporarily suspended for about ten days because of trouble over the new wage scale. Then last week there was another suspension lasting seven days. Taken together the two shutdowns aggregated nearly half a month.

Lockmaster Sweeney makes the following report from the locks for April: Down stream—Lockages 313; steamers 236, loaded boats, barges and flats 993; coal 11,942,000 bushels, gravel 3,000 bushels; lumber 75,000 feet; up stream—Lockages 327, steamers 238, empty craft 1,152, sand 36,000 bushels gravel 60,000 bushels, lumber 89,000 feet stone 1,405 cubic yards, pit posts 2,500. The passenger trade was small there being but 55 down stream and 55 up stream. The rainfall during the month was 3.16.

PUPILS PRESENT TEACHER WITH SET OF FRUIT KNIVES

The primary room of the Beallsville school, taught the past term of eight months by Miss Margaret McDermott of Charleroi, closed Friday. Miss McDermott was presented with six silver fruit knives by her pupils as a remembrance of their love and esteem.

Friday evening at the school hall the pupils of the room presented a play, "The Season Game," which was greatly enjoyed by all present and which was performed in a manner creditable to both pupils and teacher.

Besides the play there were recitations and musical selections.

DON'T LET ANOTHER WEEK PASS BEFORE you start an account with the First National Bank of Charleroi. It will give you confidence in the present and future—enabling you to establish a habit which will be so valuable to you as you grow older.

EVEN JIM CROW CARS ARE REQUISITIONED

Railroad Borrows From Other Divisions to Supply Trains For Pittsburg Division While Car Strike is in Progress

Cars of all descriptions, borrowed from the eastern, western, northern and southern divisions and ranging in their motley array from some of the respondent ones from the east to "Jim Crow" cars of the south are being run on the Monongahela valley

On Monday over 50 tickets were sold to Pittsburg for a morning train.

This was an unusual number. This morning not quite that many were sold. Some of those in the habit of

traveling by cars are postponing weekly visits to the city.

Twenty-two extra trains were operated on the Monongahela division

out from Pittsburg Monday and there will probably be fully this many trains operated from there during the course of the strike.

Locally jitney buses have been requisitioned and in nearby towns all sorts of rigs have been put into use.

SHOVEL PLANT SITUATION HERE REMAINS UNCHANGED

Part of Mill Still Idle by Run on Walkout Over Dissatisfaction in Regard to Wage Scale.

Practically the same departments at the Hussia-y-Binns Shovel company which walked out when a sliding advance of wages was effective Monday are still out. Four departments are working.

The advance in wages was declared as follows: To employees making less than \$2 per day, 10 per cent; to men making between \$2 and \$3 per day, 7 1/2 per cent; to men making between \$3 and \$4 per day, 5 per cent. Those making over \$4 per day were not raised. The strike was called in the departments now out for a 10 per cent advance applicable all the way through.

The departments at work, according to factory heads, are the handling department, the rolls department, the handle bending department and the casting department. Among those out are the finishing department, the open back department, the back strap department and the polishing department.

A grievance committee was named by the men at a meeting Monday afternoon. Their purpose is to interview the superintendent and to ask for a flat 10 per cent raise all the way through the mill.

The company is today issuing a public statement, it being contained on another page of the Mail.

GRADING WORK ON ALLEYS STARTED

Brooks and Cornish, Who Have Big Paving Contract Break First Ground

CHERRY ALLEY, THE FIRST

Under a contract awarded last week for paving sections of six streets and alleys, Brooks & Cornish of Uniontown this morning started work. The first work was done in grading Cherry alley between Third and Fourth streets.

The total contract for paving runs to \$24,705.50, this amount being close to \$4,000 less than the lowest bid submitted by any other firm on the entire job.

Upon the completion of the grading on Cherry alley the work of grading will be started on other streets and alleys, while another force of men is put to work completing the two dollars a head for each dog not killed.

The county is protected for no fees are paid the officer until he complies with this duty. Judge McIlvaine remarked that out in his

bourough, where the constable is delinquent, the dogs had been bothering his garden.

In his charge he also referred to the "pea pool" violations of the law, as outlined to the proprietors of these places on last Monday. He told the constables it was their duty to watch out for gambling of any kind in pool rooms and to make prosecutions if it was not stopped.

He also called their attention to the punching boards or other such gambling devices and told them they must not be allowed, that those having them must be notified to stop their use, otherwise prosecution would be made.

He called the constable at Center-Continued on second page.

COURT HOLDS UP CONSTABLES' PAY

Claimed They Did Not Abide by Law Compelling the Killing of Dogs

MAKE QUARTERLY RETURNS

Twenty-seven Washington county constables did not receive their pay Monday, following the making of their quarterly returns. There was considerable consternation when it was found commissioners had determined to enforce the law and not pay those officers who had failed to kill the unlicensed dogs in their bailiwicks.

Judge J. A. McIlvaine in delivering a charge to the constables referred to the law requiring constables to kill unlicensed dogs, for which they were paid, and upon failure to do so of their liability for a penalty of \$2 for each dog not killed. He notified them that the commissioners expected to hold up the pay of these officers who were delinquent in this duty. The list of those townships, where the constables had not killed the dogs was read.

Controller T. J. Underwood and deputies Ray B. Drum and Mark M. Decker, were prepared for the constables when they presented their vouchers. The list of delinquent townships, so far as dog killing was concerned, was posted and before any voucher was countersigned this list was referred to. There was some chagrin on the part of several when they were told their pay was held up. The commissioners' office was the scene of several conferences between officers and commissioners.

The districts on the delinquent list were Allen, N. U. Miller; Amwell, J. Calvin Miller; Beallsville, Fred Power; Blaine, S. E. Mehaffey; Buffalo, F. M. Coffey; Claysville, Charles Blaney; Deemston, James K. Baer; Dunlevy, T. C. Cowell; East Finley, J. O. Riddle; East Washington, John W. Wise; Finleyville, M. Oelschlaeger; Hanover, Lester McCraight; Hopewell, John Farrar; Jefferson, E. E. Robbins; Long Branch, A. W. Conaway; Morris, E. R. Wolfe; New Eagle, John H. Landers; North Charleroi, John Davis; North Franklin, Milton Owens; North Strabane, M. H. Porter; Nottingham, J. O. Harriett; Peters, Robert Carmichael; West Middletown, J. M. Lowry; Washington, First, J. P. Greer; Washington, Second, E. E. Cummings; Washington, Third, H. K. Sarver and Washington, Sixth, Jos. A.

Owens; North Strabane, M. H. Porter; Nottingham, J. O. Harriett; Peters, Robert Carmichael; West Middletown, J. M. Lowry; Washington, First, J. P. Greer; Washington, Second, E. E. Cummings; Washington, Third, H. K. Sarver and Washington, Sixth, Jos. A. Owens; North Strabane, M. H. Porter; Nottingham, J. O. Harriett; Peters, Robert Carmichael; West Middletown, J. M. Lowry; Washington, First, J. P. Greer; Washington, Second, E. E. Cummings; Washington, Third, H. K. Sarver and Washington, Sixth, Jos. A.

A GOOD LAW TO ENFORCE.

State Health Commissioner D. A. does well to call the attention of the 200 Boards of Health in this state to the fact that it is their duty to enforce the anti-spitting law of 1909 which of recent years has practically become a dead letter. There is no habit more offensive than that of promiscuously expectorating in public, so characteristic of American people. It is said no nation on earth offends greater in this direction than the people of the United States, unless it be the Japanese, descriptions of whose habits in this particular respect says the Harrisburg Star Independent. While the practice of this obnoxious habit by the Japanese, with their little over a half century of civilization, may be viewed with some leniency, for Americans to practice it, after all the warnings and lectures against it, is scarcely understandable and surely inexcusable.

The Legislature of 1909 enacted a law making expectorating in public places an offense punishable by fine, and where the fine is not paid subjecting the offender to imprisonment. For a time the expectorating ceased, only to begin again worse than ever to the disgust of the cleanly and the danger of spreading infectious diseases, particularly tuberculosis, a disease against which the law was aimed.

Expectorating in public is, therefore, not only an offense against good breeding and cleanliness but it is dangerous to health and a violation of the laws of the commonwealth, and it rests with the Boards of Health of the respective cities and boroughs of the state to enforce the law, break up this obnoxious habit and thereby lead their aid to the preservation of health.

Only a short time ago, in a complaint against a trolley company heard before the Public Service Commission, because of the said company placing in service cars alleged to be unclean, evidence was presented that passengers spat on the floor with impunity and that when attention of those in charge of the car was called to these flagrant violations of sanitary laws they declined to interfere, on the ground that they not only had no instructions to eject offenders but had no authority to do so.

There is apparently something wrong with a system that does not insist on an observance of the law. These same men, if they saw a more serious crime committed would probably be quick to assist in the arrest of the offender. Expectoration on sidewalks or in public conveyances is a serious offense against the statutes and it is a violation of law that should be severely punished by public officials who hear the cases.

HOW TO PRESERVE HEARING.
The ear is one of the most delicately formed organs in the human body. It is in direct and close relation to the brain. Its three parts, the external, middle and internal are most intimately connected. The abuse of the external ear or that part which stands out from the head and is known even by children as the ear, is often reflected to those parts that cannot be seen and do permanent harm, says Dr. Samuel G. Dixon state Health Commissioner.

These in care of children should never permit a child's ear to be pulled or slapped as such abuse will frequently cause inflammation of the middle ear and when that is diseased the inner ear may take on the same condition.

The external ear is thin and when exposed to cold will become frost bitten sooner than other parts of the body. It should therefore be protected from freezing.

When exposed to heavy air pressure in a tunnel or when there is heavy cannonading or blasting, the mouth should be partly open to permit equal pressure on either side of the drum which is an extremely thin membrane that divides the external from the middle ear.

The healthy ear should never be cleansed beyond the surface that is plainly seen by the eye. The wax will naturally accumulate and work out into the external ear, where it can be removed without danger of hurting the more delicate part of the organ.

Children should be taught that it is dangerous to put things in the ear. If any little object like a bean, button or insect should get into the ear it should not be dug after. Many ears have been destroyed by those ignorant of the formation of the ear, dig-

ging after some foreign body that has lodged well in the orifice. If the object cannot be lifted out a doctor should be consulted. If medical aid cannot be had, a careful syringing is the best and most innocent method of removing obstacles. In case of the voice of the man above grew more animate things such as insects getting distressed, people passing stopped to look into the ear. It is advisable to pour oil, olive, cotton seed or another pure neutral oil in to kill and remove the same. The common use of oil for an earache is a mistake as it is hard to remove and frequently gets gummy and collects dirt.

The ear is often injured by sniffing fluids up the nostrils which cause inflammation of the eustachian tube, which is a little duct that leads from the mouth to the ear. The ear is such a useful and delicate organ it should be cared for by a physician when trouble occurs.

"What's the matter?" asked a man in a bated voice as the youth drew away, starting to leave.

"Nothing," said the youth, "only that guy up there wants 'em to send up a chew."—Columbus Dispatch.

"Father," said the son, looking up from a book with a puzzled expression for which nobody in particular is to be blamed. The men blame the company and the company blames the men, and there they stand while the public joins in and blames everybody. In any strike the company, the men and the public are losers, even though in the long run a principal is gained by someone. Nobody will gainsay that fact that strikes should not be necessary. But under the present system they are going to occur.

Amid all the clouds there is a little sunshine in this announcement of the decreasing price of milk. Frankly we hadn't thought the milkman would be willing to reduce the price to the customary summer rate of eight cents per quart and the surprise makes all the more pleasing their announcement. The dairymen are entitled to thanks for their efforts toward supplying the sunshine we sadly need in these days of ever increasing cost of living.

The finger print system is a good thing. Locally it has proven so. Within a week Chief of Police Albright using the system managed to save for a local woman stolen \$125 diamond ring that otherwise might not have been recovered. The one feature about finger prints is their conclusive proof. There is no getting around one's features.

*** PICKED UP IN PASSING ***

It was a moment of great excitement. People collected there on the sidewalk, six floors below where the painters on their frail board swing in the spring breeze, close to the side of the new building.

The external ear is thin and when exposed to cold will become frost bitten sooner than other parts of the body. It should therefore be protected from freezing.

When exposed to heavy air pressure in a tunnel or when there is heavy cannonading or blasting, the mouth should be partly open to permit equal pressure on either side of the drum which is an extremely thin membrane that divides the external from the middle ear.

The healthy ear should never be cleansed beyond the surface that is plainly seen by the eye. The wax will naturally accumulate and work out into the external ear, where it can be removed without danger of hurting the more delicate part of the organ.

Children should be taught that it is dangerous to put things in the ear. If any little object like a bean, button or insect should get into the ear it should not be dug after. Many ears have been destroyed by those ignorant of the formation of the ear, dig-

UNION CITY VICTIM REGAINED HEALTH

Mr. Martinan Finds Good Health After Using Wonderful Remedy.

C. Martinan of 42 Graves street, Union City, Pa., after long suffering from ailments of the stomach and the digestive tract, took May's Wonderful Remedy with the most remarkable results.

The suffering of years was ended with the first dose.

Mr. Martinan's experience is told in a letter—written a year after taking the remedy, thus proving the permanent nature of the benefits. He wrote:

"It has been a year since I took your treatment, which I am sure did me a great amount of good. My health at present is good, thanks to your wonderful remedy. I will always recommend it to my friends."

May's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

COYLE THEATRE WEDNESDAY

DADDY'S EVENING
FAIRY TALE

BY MARY
GRAHAM
BONNER

HOW THE SNOW WAS KIND.

"The fairies," said daddy, "were all around today doing so many kind things that no one knew about. You see it was such a cold day, such a bitterly cold day, and quite a change from the nice spring weather that there had been lately."

The fairies thought first of all of the little birds who had come from their warm winter homes, and of the little animals who had awakened from their winter's sleep, and they set quickly to work.

"They went to different parts of the woods and some went to the parks in the cities, and whispered to the snow which was falling fast.

"Now you know, old snow, that you can be very, very cold if you want to be. You know too that you can be really quite warm if you will only fall where you will be a shelter from Mr.

North Wind. Mr. North Wind, we know, is never warm. He is always tearing around so much himself and blowing and raging so much that he just keeps warm himself and is too selfish to care about other folks. But we will tell you what to do. Mr. Snow.

Here, in the woods, you fall around the trees. Don't cover up the holes and hollows where the rabbits can get shelter, but fall around the hollows and the rabbits can crawl in and get nice and warm. Then fall in just that way around the homes of the little squirrels, and the homes of the birds who have come too early, or of the little sparrows who have such a long winter trying to keep warm.

"In the cities watch the trees where the little birds go, and be very careful, oh, so careful, not to cover up the holes. Fall so you will make a big strong fort where the little animals can creep inside."

"Now the snow decided it would do just what the fairies had said. It fell steadily all day. Snow banks—snow drifts—everywhere there was snow. The trees were heavy with it, the ground was covered deep with it. Little boys and girls who had put away their sleds until next winter, brought them out and began sliding down the hills as fast as they could.

"But the little birds and the little animals couldn't get warm sliding down hill. They couldn't get warm like the big ladies and the big men walking fast on the streets, they didn't even have rugs thrown over them like kind masters put over their horses on cold days. As soon as they felt Mr. North Wind and saw that it was beginning to snow, they trembled and shook all over. For they thought that they would feel the cold so much after the warm weather.

"But to their great surprise, they didn't feel cold at all! They found all the little holes and hollows protected from the snow. At first they went inside, always looking out to see that the snow didn't bury them in.

"When the snow saw the squirrels in the parks whisking their bushy tails and heard them say, 'The snow is really lovely and not a bit cold'—and heard the little birds whisper, 'This is wonderful, we don't shiver at all,' then the snow was ever so glad it had fallen as the fairies had asked."

DIFFERENCE IN BOYS' WORK

Country Lad's Tasks Are Useful and

Man-Building, While City Youth

Is Unemployed.

It is very sad, of course, the letter the country boy wrote telling what he did after school.

The boy's account of his after-school work begins with gathering eggs and carrying in stove wood, runs along a list of labors that would exhaust two men and a team, and ends with "then I go to bed."

That country boy's after-school tasks consumed long and weary hours, but every stroke was clean, useful, man-building labor and more joyful than joyless, too.

Far more sorrowful would be the letter of a city boy narrating his doings between school and bed. With too many boys a truthful letter would be a record of misemployed hours filled with mischiefs and meanness, without one stroke of useful, body-building and character-developing work or exercise.—Buffalo Enquirer.

A High Sounding Name.
A small boy one day asked his mother what kind of pie she was making. "Lemon meringue pie," she answered.

The little fellow disappeared, but presently returned. "Mother," he said, "what did you say is the pie's name?"

HUSBAND WELL MAN DECLARES MRS. BEAUMONT

Erie Woman Tells of Recovery of Spouse, After Taking Tanlac

"My husband is now a well man after twenty years of suffering from the most terrible form of stomach trouble.

"For four months up to about a month ago, he had hardly been able to work. The last eight weeks of that time he being almost helpless," said

Mrs. T. E. Beaumont, of 218 East Fourth Street, Erie, Pa.

"He bloated so after eating that he could not get his clothes around him. Not a year has passed without improvement and growth. On Saturday, May 13 the big show will come to Charleroi with an entire new equipment.

"One day I picked up paper and saw the advertisement of Tanlac. For several days afterwards he watched for the advertisement in which Erie people told of the marvelous recoveries from bad health of people who had been taking Tanlac.

"Finally, he decided to try a bottle.

"He took the medicine for a few days in a hopeless way, but the third night I was surprised to see him drop off to sleep and when I awakened through the night he was still lying in the same position and breathing as regularly as a child.

"The next morning when he awoke he was rested, his stomach was clear and he ate a hearty breakfast, the first one for many years. He digested this meal without any trouble. His bowel and kidney trouble left him. After he had taken three bottles he was entirely well and is now going to his work happy and determined to get along."

Tanlac is now sold in Charleroi exclusively by Pipers Pharmacy where the premier preparation can now be had.

"TENTED CITY" IS THE WALLACE-HAGENBECK SHOW

The show grounds of the Carl Hagenbeck-Wallace Circus is a city with its own town council and a state charter. It has its own lawyers, postmaster, dentists, doctors, carpenters, painters, detectives, blacksmiths, wagon-makers, laundrymen, barbers, shoemakers, tailors, sail-makers, harness makers, storekeepers and photographers. It supports a great hotel in which thousands of meals are cooked and eaten every day in the week.

Twenty-two tents that cover a small-size farm houses the circus in the day time. The largest tent is 540 feet in length and among the biggest ever constructed. Six gigantic oak poles form the chief support. Any one of them is larger than the largest mast on a sea-sailing vessel; the smallest tent is the one used to house the circus barber shop. At night the circus is transported on a show train one mile in length and divided into three sections; another sun sees the single season the circus train travels almost 30,000 miles, making stops in about 200 cities and giving 400 performances.

The wonderful creative idea of Carl Hagenbeck and the remarkable system of B. E. Wallace are still the active principles of the management.

"He bloated so after eating that he could not get his clothes around him. Not a year has passed without improvement and growth. On Saturday, May 13 the big show will come to Charleroi with an entire new equipment.

The program that is offered is the best this season in the history of the organization. There are more than 400 artists on the list that offer new and sensational novelties and thrills. Fifty clowns will add fun. The Carl Hagenbeck trained animals will be seen in an immense steel arena.

The circus-day festivities will be opened by an immense street parade at 10 o'clock in the morning on the day of exhibition.

JUSTICE REESE OF CANONSBURG FOREMAN

Justice T. M. Reese of Canonsburg, was named foreman of the May grand jury, which was convened Monday.

The street car strike prevented some jurymen reaching Washington and only 18 of the 24 summoned were on hands. Judge J. A. McIlvaine delivered the usual charge as to their duties. District Attorney Baum and Assistant District Attorney Taylor then took up the list scheduled for Monday. The court room was filled with witnesses.

Deeds Recorded.

April 18, 1916—Pierre Joseph

Henri Emile Clavir, et al., to Nat Sosanko, four lots 120 by 160 in the plan

of the Charleroi Land Co., Charleroi; consideration \$2,500.

a divorce from Victor Zumianni, on

the ground of desertion. They were

married January 27, 1904 and lived

together until October 1, 1912.

Why so many Repair Bills

If there's one thing more than another that sours a man against motoring and makes him wish he'd stuck to the horse-and-buggy, it's having to dig down every week or so to pay for some darned thing that has gotten out o' kelter. **Correct lubrication** will help to keep your car out of the repair shop and your hand out of your purse.

Atlantic Polarine is "correct lubrication" for eight out of ten cars. Under certain conditions, one of the **other** three principal motor oils—Atlantic "Light," Atlantic "Medium" or Atlantic "Heavy"—may give better results.

But, in all events, at least **one** of those four oils is the one best suited to your particular needs. Ask your garageman which.

Read up on this subject. We have published a handsome and comprehensive book about lubrication. It is free. Ask your garage for it. If they cannot supply you drop us a postal and the book will be sent you without charge.

A Daily Scene With the Hagenbeck-Wallace Circus, Charleroi, Sunday May 13.

L. M. IRWIN AVELLA, PA.

For Member of Democratic State Committee Subject to Democratic Primaries in May.

A High Sounding Name.
A small boy one day asked his mother what kind of pie she was making. "Lemon meringue pie," she answered.

The little fellow disappeared, but presently returned. "Mother," he said, "what did you say is the pie's name?"

New Spring Suits

We are showing in Suits and Coats the most beautiful and popular creations. Sensational styles, garments with plenty of snap and vim--styles that the careful dresser can wear, who want to have that touch of sprightliness to their appearance and yet not pay more than they would for the ordinary kind--A collection that surpasses in beauty--distinctiveness and service ability any ever shown at the price--that's our judgement--we would like yours.

Every new style innovation is reflected in our new line of silk and serge suits.

New Silk and Silk and Serge Combinations

Just the right suits for those who wish to be dressed in the very newest and best, come in navy, black and green. Priced

PENNSY MILEAGE TO BE GOOD ON MONONGAHELA

Arrangements Made For Sale on Different Provisions of Books Good On Line to Pittsburg and Line To Fairmont.

That Pennsylvania railroad mileage will be valid on the Monongahela railway and that Monongahela mileage will be valid on the Pennsylvania railroad to Pittsburgh only, are the latest developments in the mileage books.

Mileage books will be sold on the Monongahela railway on and after May 14 for \$2.50 and containing fare for 1,000 miles. They will be valid from Brownsville to points in West Virginia as far as Fairmont. These books will be valid also on the Pittsburgh and Lake Erie railroad, a branch of the New York Central lines, which operates trains on the Monongahela railway and the Pittsburgh and Lake Erie from Pittsburgh to Youngstown, O. Otherwise Monongahela mileage books are not valid on the New York Central lines. So far New York Central or Lake Erie mileage is void on the Monongahela railway.

On and after May 22, Monongahela mileage will be good on the Pennsylvania railroad to Pittsburgh only. On and after May 22, Pennsylvania mileage will be good on the Monongahela railway, providing the passengers are riding a Pennsylvania railroad train on the Monongahela railway. Pennsylvania mileage will not be taken on a Lake Erie train on the Monongahela railway. It is therefore possible to ride direct from Chicago or New York to Fairmont on Pennsylvania cars with Pennsylvania mileage but not on New York Central cars with New York Central mileage.

PLAY TO BE GIVEN THURSDAY

AS BENEFIT FOR LOCAL CHURCH

"All on Account of Polly" a comedy drama will be given at the high school auditorium Thursday evening May 4. It will be presented by the J. W. W. Class of the Mt. Zion Lutheran church of Pittsburg as a benefit for the Charleroi Lutheran church. The story of the play is taken from the famous stage success "Pollyanna."

GOING UP THE HILL

Economy looks like an up hill game when you first start. Sometimes it is; but it is the road to prosperity. Persevere in your small economies and you will find this out. Your extravagance does not draw interest, you will pay interest on your extravagance, some day.

If you will start now, to save a little each week, you can some day enjoy the luxuries you crave without missing the money.

OUR BANK affords you an opportunity to begin in a small way to-day. OBEY THAT IMPULSE.

BANK OF CHARLEROI
RESOURCES OVER \$1,800,000.00

To The Public

Manufacturers in the United States who are not in the munition business are the sufferers from the present great demand for labor. The European war has taken many that were already in this country from the field from which the manufacturers must employ their workmen. The munition factories, who have war orders, can afford to pay considerably more for labor than the work justifies. This naturally upsets the true economic conditions and is largely the cause of the present unwarranted condition in the labor market.

Our Company, realizing the above and wishing to give to its employees every advantage with regard to increased wages that the business of this Company justifies, voluntarily advanced its wages on a scale that seemed to be fair and just. To those who commanded the least compensation they increased 10 per cent. and scaled to 5 per cent. to those who were making wages that were much in excess of the ordinary wage scale. Manufacturers that must purchase materials on the war basis, who cannot sell on the same basis, are the sufferers under the present conditions.

About two hundred men are being sacrificed by a few dissatisfied men, who draw the largest amounts each pay. Is that fair? This is written in order that an explanation may be made to the public as to why the Shovel Plant is shut down, and also that our attitude may be explained.

Hussey-Binns Shovel Co.

VOTES OF WOMEN

Do women realize that they already vote in the most effective way on important questions?

Every time a woman buys an article it is a vote, backed by money, for that article, a sincere approval of its merits.

So women have been voting on the question of health. When they have suffered from woman's ailments their vote has been overwhelming for Lydia E. Pinkham's Vegetable Compound, which they have bought and used with satisfaction.
